2ND ANNUAL NORTH-EAST

**EBM** **BBCI**

Virtual Conference 2021

26<sup>th</sup> & 27<sup>th</sup>

November

2 0 2 1

**CANCERS OF GALLBLADDER,  
PANCREAS AND COLON**

*Dear All,*

**D**r B Borooah Cancer Institute (BBCI), Guwahati being the champion of oncology care catering to the needs of North East India, we strive to practice evidence based management directed at organ specific site. Continuing the tradition of last year of holding EBM conference this year we are addressing the sites of "Gallbladder, Pancreas and Colon". Malignancies of Gallbladder, Pancreas and Colon are one of the commonest oncological challenges of North East India. So, I hope this meeting will go a long way in addressing the clinical problem and research potential in studying these diseases. The incidence of Gall Bladder Cancer in Kamrup Urban District has recorded the highest in the country in both male and female. This organ specific approach of managing these malignancies will provide valuable guidance in better patient care and outcome. Hope this event will help clinicians from all over North East India as well as rest of the country to get a clear overview in handling these malignancies.

In view of the ongoing pandemic situation we are going to organize a virtual conference which will include renowned National and International faculties who will deliver and provide guidance with evidence in managing these problems. The target audience will encompass the various disciplines of oncology care and supporting diagnostic departments, researchers and residents in training of various specialties.

We look forward to welcoming you at this 2nd Annual North East EBM Virtual Conference 2021.

Dr. A. C. Kataki  
Director

Dr. B. Borooah Cancer Institute,  
Guwahati-16

**Day 1 : Friday, 26th November, 2021**

01:00 PM	National Anthem
01:03 PM	Welcome Address - By Dr. A. C. Kataki, Director, BBCI
