*Details
attached*

We are delighted to inform that with your guidance and motivation, we have developed immunoassays conducted routinely at Kode Lab as FIAT facility and its is attracting good number of requests from academic and industry organizations. List of requests is given as attachment.

Since work involves culture assays and immunoassays with day long process, we would like to request two contract staff of Rs 20 K fixed pay per month: for washing for immunoassays and other administrative/ finance-related documentation, dedicated for FIAT facility. Mrs Trupti Pradhan will look into routine functioning of both.

Staff cost would be around Rs 5 lacs per year and we already have requests for around 45 lacs in hand (list attached).

For industry collaborative contract research we have set Rs 20 L per module. These would be involving immunomodulatory testing of potential drug/s and would involve benefit sharing as well. Hence we would like to seek your permission to appoint dedicated staff (Rs 20 K fixed per month) per industry request so as to meet their desired timeline for applying patents. We would generate separate project account for such requests and add FIAT/ ACDSF/ PET-CT/ Histology/ Flow facility / TEM related funds to respective accounts.

Currently I have been using kits / reagents and resources from Kode Lab. I would like to request you to sanction Rs 10 lacs for purchasing consumables for FIAT- related work / activities for FY 2023-24.

Kindly sanction requested staff/ consumable grant at earliest.
