Dear All,

With worst of the Global COVID pandemic behind us and the normalcy of life returning in most areas, it is time to return to our routine academic activities in the conventional format.

Mastercourse in Oral cancer management is an annual event at Tata Memorial Hospital that is aimed at students, residents & clinicians in the field of otolaryngology, maxillofacial surgery, surgical oncology & head neck surgery.

The course will involve basic management guidelines as well as recent advances in treatment of oral cancers, live interactive sessions with special focus on surgical techniques & management of complications.

We are happy to announce that we plan to conduct this year's annual 'Mastercourse in Oral cancer management 2022' at Tata Memorial Hospital as an offline meeting following all the covid safety restrictions.

The event will be conducted on 29-31st July 2022; three-day sessions will have live surgical demonstrations by experts, talks and panels discussions. This provides a unique opportunity to get an update on management guidelines & interact with prominent faculty in the field.

A unique hands-on cadaver dissection workshop* (limited seats) will provide opportunity to learn the basic steps and intricacies of the oral cancer surgery to the young students.

We look forward to meeting all the delegates in person and have a great learning experience! details of program will follow soon. For registration, contact tmcmastercourse@gmail.com (Contact No: 02224177000 Extn 4266)
