Description

Registrations for ARC 2019 are full.
Anaesthesia Review Course'19 (ARC'19)

Dear Friends, I hope you are all familiar by now with the Anaesthesia Review Course. This course is designed for the exam going postgraduate students as a revision of the core syllabus of the anaesthesiology examination. The overwhelming response from students from all over the country over the past fifteen years has encouraged us to keep going. The course this year, the 16th year running, ARC 19, will be held from **12 – 14 April 2019**. The venue will be the Ruston Chowksi Auditorium, Golden Jubilee Block, Tata Memorial Hospital, Mumbai. We have maintained the format of the course with extensive case discussions and workshops that include the anaesthesia machine and instruments.

In order to allow one to one interaction at the workshops, we have to limit the number of registrations. **We therefore register only exam going students. We will NOT accept registrations from 1st & 2nd year students. The registrations will be on first come-first serve basis and there will be NO spot registrations. Registrations will be open from Nov 1, 2018 – Jan 31, 2019.** Please ensure that you send in your registrations early as last year the course was full by the end of December. The course fee is **Rs. 8000/- (eight thousand) only**.

We hope to see you in Mumbai.

Dr JV Divatia
Course Chairman

Dr. Aparna Chatterjee, Dr Madhavi Shetmahajan
Organizing Secretaries
