Description

Conference name: Digital Pathology and AI : 101 & Beyond

Department of Pathology, Tata Memorial Hospital, Mumbai, is pleased to announce a 2-day **"Digital Pathology and AI: 101 & Beyond"** conference on 19th & 20th October 2024 followed by a 1-day Post-Conference Workshop on 21st October 2024.

Digital Pathology(DP) and artificial intelligence(AI) have revolutionized the field of pathology. Technological improvement, regulatory approvals, and deep learning refinements in recent times have transformed DP and its applications. However, adoption in routine clinical practice has been slow and variable, causing both technology developers and end users to grapple with today's barriers. The journey to becoming 'DP & AI-ready' requires proactive preparation, strategic vision, and a comprehensive understanding of these hurdles.

Global experts in DP and AI will participate in this two-day conference to unravel nuances, implementation challenges, needs, fears, ground breaking advances and future directions in the following key areas:

1. Establishing and Transitioning to DP & AI
2. Addressing Pre-Imaging Factors for DP & AI; Getting ready for Next Generation Pathology
3. Evolving role of DP & AI in Translational Medicine
4. Ethical and regulatory issues with DP & AI

Confirmed international faculty includes:

- **Dr Junya Fukuoka, Japan**
- **Dr Norman Zerbe, Germany**
- **Dr Anant Madabhushi, USA**
- **Dr Rajendra Singh, USA**
- **Dr Fouad Alchami, Qatar**
