

Conference

Conference Details

Adv No. : ARPCOP-2019
Conference Name : XVII Annual TMH Radiotherapy Practicum – 2019
Conference Venue : Prof. R. D. Choksi Auditorium, Tata Memorial Hospital, Mumbai
Conference Dates : 20-09-2019 To 21-09-2019

Description

Dear Colleagues,

Small fields are part of current advanced radiotherapy techniques such as Stereotactic Radiosurgery (SRS), Stereotactic Radiotherapy (SRT), Stereotactic Body Radiotherapy (SBRT), Intensity Modulated Radiation Therapy (IMRT) & Volumetric Modulated Arc Therapy (VMAT). Despite being widely employed, the dosimetry of small fields is neither well understood nor there is a universally accepted dosimetry procedures. It is important to address this topic to improve the accuracy of beam dosimetry in small fields and thus improve the safety and efficacy of patient treatments.

The purpose of the workshop is to acquire practical knowledge on how to implement the new International Atomic Energy Agency (IAEA)/American Association of Physicists in Medicine (AAPM) code of practice on small field dosimetry.

The workshop is an opportunity for clinical medical physicists from India to obtain first-hand information on the dosimetry of small fields in radiotherapy.

This two-day workshop will consist of lectures, presentations, discussions followed by hands of demonstration perform by the participants.

Organizing Chairman

Agarwal JP
Kinhikar RA

Organizing Secretary

Upreti RR

Last date for submission of Pre Registration Form has been extended upto 15th May 2019.
