 Four CPD Points each for all the three Main Conference Modules.**

Dear All,

The Tata Memorial Centre cordially invites you to the 18th conference on "Evidence Based Management of Cancers in th st India- EBM 2020" to be held from 28 February to 1 March 2020. This three day meeting will merge with the "Hospital th Day Celebration" which will be held on 29 February 2020. The Tata Memorial Hospital has pioneered the cause of EBM in oncology in India and has been conducting the annual meeting on EBM in common cancers for the past seventeen years.

Each year we have focused on different aspect of cancer care; collated and published the best available evidence in the form of "EBM book" which is also easily accessible at our official website. This meeting helps busy clinicians from all over the country and abroad to get updated on the best available evidence in oncology in a span of 2-3 days, there by translating into better overall patient care. This year we will be focusing on Neuro-Oncology, Urological Cancers and Palliative Care.

Renowned International and National faculty members will cover the above topics in a very focused and succinct manner. The target audience for the meeting includes surgical oncologists, neurosurgeons, radiation and medical oncologists, anesthesiologists, radiologists, pathologists, palliative care oncologist, physicians, basic scientists, general medicine practitioners, researchers and residents training in any of the specialties.

We look forward to welcoming you at this annual event.

Prof R A Badwe, Director,
 Tata Memorial Centre
