Conference Dates : 23-02-2018 To 25-02-2018

### Description

#### \* MMC has granted Four CME Credit points for registered delegates

Dear All

The Tata Memorial Centre cordially invites you to the 16 conference on "Evidence Based Management of Cancers in India- EBM 2018" to be held from 23 - 25 February 2018. This three day meeting will merge with the "Hospital Day Celebration" which will be held on 24 February 2018. The Tata Memorial Centre has pioneered the cause of EBM in oncology in India and has been conducting the annual meeting on EBM in common cancers for the past fifteen years.

Each year we have focused on different aspects of cancer care; collated and published the best available evidence in the form of "EBM book" which is easily accessible on our official website. This meeting helps busy clinicians from all over the country and abroad to get updated on the best available evidence in oncology in a span of 2-3 days. This year we will be focusing on Head and Neck Cancers, Immunotherapy and Paediatric Solid Tumours.

Renowned international and national faculty members will cover the above topics in a very focused and succinct manner. The target audience for the meeting is surgical, radiation and medical oncologists, anesthesiologists, radiologists, pathologists, physicians, basic scientists, researchers and residents in-training in any of the specialties.

We look forward to welcoming you at this annual event.

Prof R A Badwe, Director,  
Tata Memorial Centre

#### Important Dates:

Decision on abstract acceptance will be intimated via email by 31st January 2018.

#### Live Webcast of Evidence Based Management (EBM) 2018

Evidence Based Management meetings have completed 15 years at Tata Memorial Hospital. Every year renowned national and international faculty members participate in this annual event where various issues related to particular cancer are discussed. The theme for the EBM 2018 is "Head and Neck Cancers, Immunotherapy and Paediatric Solid Tumours". Since last few years we have been doing the relay of our meeting at various cancer centres across India. This year also this facility will be provided after prior registration.
