

OCCUPATIONAL THERAPY DEPARTMENT

Occupational Therapy Department enabled individuals to achieve personal productivity, wellbeing and quality of life through assessment, goal setting, interventions and participation in personally meaningful occupations while also addressing their physical, social, emotional and spiritual needs. Occupational Therapy Department interacted with various DMGs and ensured optimum rehabilitation for better outcomes and increased patient satisfaction.

Occupational therapy department started since September, 2019 at HBCH and the Occupational therapy services are being provided on OPD and IPD basis to the patients at HBCH/MPMMCC.

In addition to regular rehabilitation, occupational therapy, department took measurement and fabricated 52 low temperature thermoplastic splints, 43 above knee and below knee prosthesis, 583 Taylors braces, 17 DRB (Derotational boot) and 4 Rotational prostheses which improved patients QOL and ADL activities for HBCH/MPMMCC patients.

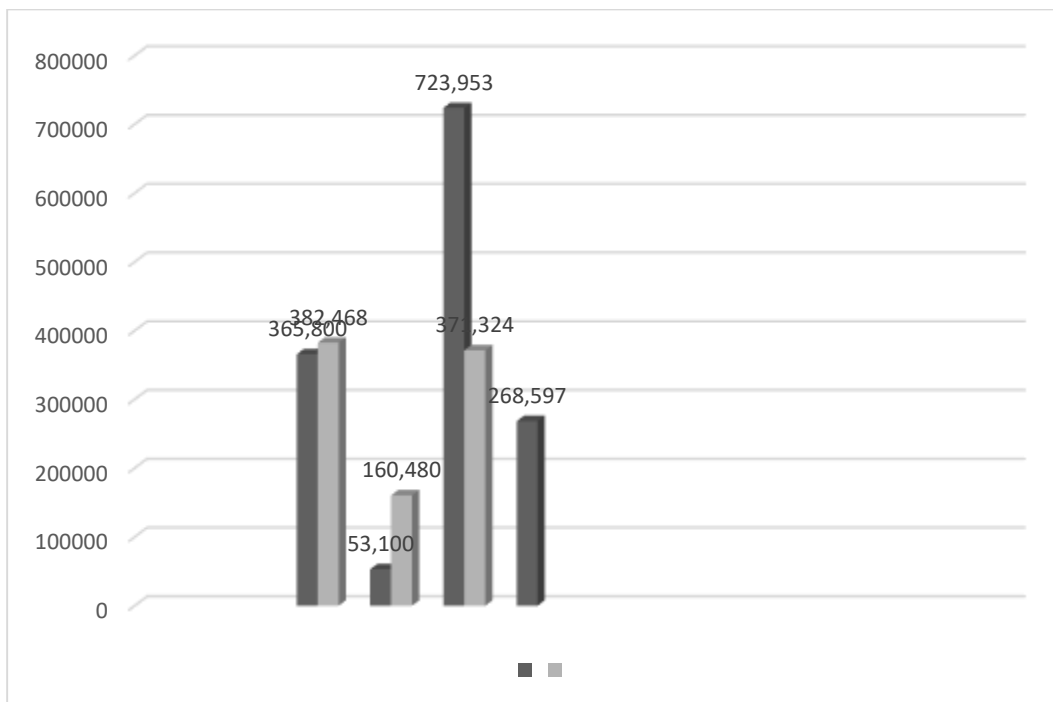

Services provided:

- **Multi-Layer Bandaging Technique-** provided to reduce lymphedema for cancer breast patients.
- **Cognitive perceptual rehabilitation-** provided for Neuro Onco-patients in HBCH& MPMMCC.
- **Splinting, orthosis & prosthesis-** had impact on quality of life & functional performance of patients at HBCH&MPMMCC.
- **Mirror therapy-** provided for amputation patients to prevent phantom limb sensation.
- **Group and play therapy-** for Paediatrics Onco-patients to take care of depression as well as improve self-involvement in community.
- **Vocational rehabilitation** counselling also done to enhance return to transitional /permanent job for patients with one's own capabilities.
- Free distribution of Vaginal Dilation kit provided by INDIAN CANCER SOCIETY, Mumbai for NC/B Category Gynaec-onco patients at HBCH & MPMMCC, respectively.

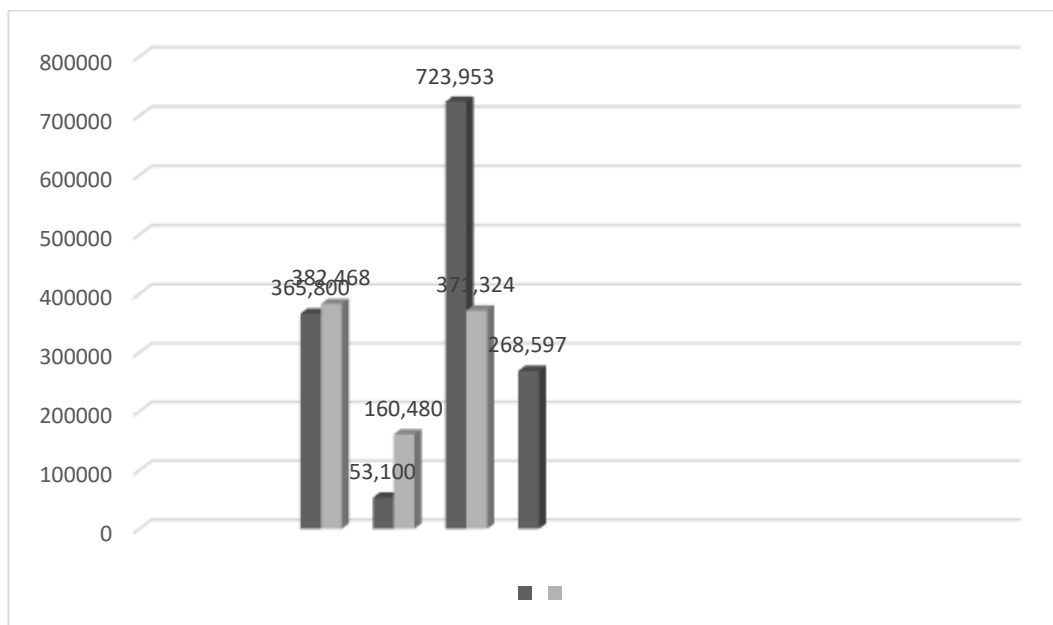

Education:

- Staff regularly participated in departmental academic & DMG meetings, CMEs, Conferences and Workshops, held in and outside HBCH/MPMMCC.
- The department has been involved in education of observers from various faculties like Occupational Therapy, Palliative Medicine, Dental, Physiotherapy and Nursing.
